EXPERIENCE

FREELANCE

AUG 2017 – CURRENT

Freelancing small to medium sized projects related to web and android.

BASE29

JUL 2015 – FEB 2017

I was a part time employee here, continuing my university in morning and Job in afternoon, my responsibilities included testing and fixation of WordPress sites, training internes and occasionally developing PSD to WordPress.

BASE29

MAY 2014 – JUN 1015

Summer Internship, where I converted PSDs to HTML according to w3c standards.

EDUCATION

PLAN X, LAHORE

From Feb 2018 to current. Working on Machine Learning and Artificial Intelligence at EML.

COMSATS, LAHORE

From spring 2013 to fall 2017. My major courses included Software Requirement Engineering, Design Patterns and Quality Engineering. My final year project was web and android based. The Goal was to schedule and Vaccinate children from birth to age 16, keep track of it vaccinations and help vaccinators track locations of children using google maps API.

COMMUNICATION

Occasionally participated in debates and was the class rep for 2 years and also was the group leader in my final year project.
